

Storm Water Quality Awareness Survey

City of Lebanon, Indiana

The City of Lebanon is interested in knowing the levels of awareness and concern that Lebanon residents have regarding pollution prevention and storm water issues. Your participation in this brief survey will provide guidance to us as we address our city's storm water problems and implement the new requirements of the Clean Water Act requirements that are applicable to our community.

Please answer the following questions by checking the appropriate box next to each question. Return the completed survey to one of the 3 locations shown at the bottom of the page.

- 1. The City of Lebanon should place the following level of importance on addressing storm water pollution problems:**
